

Addiction Treatment Works

At The Counseling Center...

Our mission is to improve the lives of our clients and our community. We work to heal their mind and body, to inspire and to provide excellent service in alcohol and drug addiction treatment, primary healthcare, recovery support, case management, behavioral health, vocational development and to be a resource to all members of the community for outreach, prevention, education, and advocacy.

We believe treatment and prevention services work, and that people do recover from addiction. We believe people can improve the quality of their lives and restore their self respect, reestablishing themselves as productive individuals in the community. We believe that individuals who use prevention services learn new skills, gain new perspectives and develop effective coping strategies, which assist them in making choices, promoting a healthy quality of life.

What is withdrawal management?

Foundations-Withdrawal Management offers onsite nursing care 24 hours a day, 7 days a week with physician visits and around the clock on-call physician availability. Our facility works on a 3.7 WM ASAM Level of Care which means that patients will be experiencing or expecting severe withdrawal symptoms that need 24 hour nursing care and physician visits as necessary.

We accept adults 18 years of age or older including pregnant women who are experiencing or expecting to experience severe withdrawal from Opioids, Cocaine, and Amphetamines. The average stay is 5 days; however, each discharge plan is created to meet the patient's individual need. Our goal is to help create firm Foundations on which to build future recovery.

What happens at Foundations?

Upon arrival, a comprehensive interview and screening assessment is performed to determine Level of Care. During a patient's stay they will have access to:

- Withdrawal Stabilizations and Medication Intervention
- 24 Hour Nursing Observation and Physician Availability
- Individual and Group Therapy
- Case Management
- Introduction to Community Recovery Resources
- Referral for Ongoing Treatment Services

Hours of Operation
