

About Stepping Stone House (SSH)

Stepping Stone House is a minimum 90-day treatment program for adult women with a primary focus on recovery from alcohol and other drug addictions. The program is designed to accommodate mothers with children (ages 12 and under), pregnant women and single women.

The evidence based treatment modalities and curriculum used are designed to meet the unique needs of women with addiction. The program is devoted to the prevention and treatment of alcoholism, drug addictions, and other health and behavioral health problems. Pregnant women will receive prenatal care and assistance in caring for their newborn after they give birth.

The treatment is provided by a caring and professional staff which includes a qualified group of residential assistants, case managers, and licensed counselors. Our commitment to helping women recover is as strong today as it ever has been.

We believe in miracles!

"For years I was a menace to society and above all my family. Getting high was the only thing I cared about. I couldn't do anything until I had my fix. I came to Stepping Stones because I was sick and tired of the way I was living my life. I didn't want to use drugs anymore but wasn't sure if that was really possible for me. Stepping Stones gave me the tools and support I needed to live a responsible and productive life, free of alcohol and drugs. I can look at myself in the mirror today and be proud of what I see and what I have accomplished." - client testimonial

Recovery Housing for the Stepping Stone program is provided through our affiliated agency Compass Point Housing.
