

Continuing Care

An Aftercare program for clients completing Stepping Stones Outpatient Program

The Continuing Care Closet

What is Continuing Care?

Continuing Care is an aftercare program for Stepping Stones and it is for the mothers that have successfully completed treatment. We offer continued services to help the client remain engaged in their recovery. Our slogan is "Helping Mothers Maintain Sobriety" and this is the whole purpose and goal of the Continuing Care program.

What is the Care Closet?

The Care Closet is a motivational incentive store where mothers can earn Care Cash and "buy" needed or wanted items for their children and also for themselves. Clients can earn Care Cash by going to weekly individual and group meetings, having negative drug screens, participating in 12-step work, and keeping scheduled doctor appointments and wellchild visits.

How can I help the Continuing Care Program?

The Care Closet is stocked through gifts, grants and donations from affiliate agencies and our community. But we are always in need of daily child care necessities. The Care Closet accepts various items including diapers, toys, children and baby clothes, household items, cookbooks and bottles. We are not selective. We welcome new items, but all donations are greatly appreciated.

Donations can be made at one of the community baby showers or sponsoring churches, and also dropped off to the Community Relations & Development Department at:
The Counseling Center, Inc. Admin. Office
923 Findlay Street
Portsmouth, Ohio 45662

For more information on the program or how you can help contact Continuing Care coordinator:
Sherry Holbrook at 740 - 354 - 6550 ext. 2759
